THE POLITICAL HORITON —From certain indications we are led to surmite an active interest already awakened and at work in the matter of the approaching election of Senators and Representaives to the Congress of the United States from the State of California. As candidates are already on the Carpet algorithms and the adjournment of this Convention will be the signal for fing ng out the banners of the respective parties, girding on the armor, and entering the arena in earnest. We shall partake of the sport from "the judges' stand," and approve of a flerce contest so long as all goes well for California.
